## **The Civil War and Genealogy**

## Cover Photo: The Civil War and Genealogy

Before talking about this photo, I should point out that I really don't know this young man's name. He's not a Franklin.

Modern photography began in 1839. Within just a few short years, artists and journalists grasped the concept of photography, creating both works of art and documentaries to capture and document the human experience. For many people, childhood, so short yet lasting in impact and memory, has been an inspiring photographic subject. Preserving the fleeting moments of youth on a glass plate or negative film allowed the children to be remembered and reconsidered. It allowed parents to preserve the precious memories of their children, long after they were full-grown.

Photos record the spirit, vulnerability, unpredictably, playfulness, liveliness, and dignity of children throughout generations and in diverse parts of the world. From the tarnished silver surfaces of early nineteenth-century daguerreotypes, youngsters emerge like miniature adults, straining to remain motionless while their likenesses are preserved. This Civil War era *carte de visite* glorifies a young boy's role in that very adult conflict.

The American Civil War, also known by many Southerners as "The War Between the States," marks a very pivotal era in US history. Coincidentally, but not quite accidentally, this is also a pivotal era for genealogists. The availability of records takes a huge leap forward due to many of the facets of the politics surrounding the Civil War.

The 1850 Census is the first to list all of the members of the household (for whites). Have you ever wondered why? It's because the Congress wanted to ensure that the counts were accurate and verifiable for apportionment. Apportionment was vital to the legitimacy of government and the underpinnings of representation in Congress.

Naturally, the various military records are a treasure trove of genealogical information. These include military service record and medical records which are usually of little genealogical value, but sometime contain some interesting biographical information. More important to genealogists are the pension records which may contain a wealth of genealogical data. One example of this in my own research was in the pension claim by my ggrandmother, Polina Jane (Dollison) Franklin, wife of James C. Franklin of Greene County, Missouri. Although her claim was never approved, the file contains numerous items of correspondence and affidavits attesting that her neighbors knew her and her husband; they were never married to anyone else, the affidavit by the attending physician as to cause of death, etc. Most interesting is a letter which was apparently written by her attorney. It contains an explanation that although she was known as "Paulina," her legal name was "Polina" It also ends with her signature. As far as I know, this is the only copy of her signature that still exists.

A handwritten signature in cursive script that reads "Polina J. Franklin". The signature is written in dark ink and is centered on the page.

## Letter from the Editor

Well, another new year, and another very, very late issue. This one is late because of too much information! This volume contains only about 20% of the Missouri information that I gathered, so I will be publishing the rest of this information in future issues. For the many of you who don't have Missouri kin, don't despair! The next Missouri issue will not be until next year. I know that not all of you are interested in Missouri!

With the proliferation of various databases, there are sooo many projects from which to choose. If you have any preferences , please let me know. My subscribers certainly get first choice in this.

The next volume will again take a break from specializing in a particular state and will contain information and queries that have been piling up.

## Book Review: *The Franklin genealogy*

**Call Number:** US/Can; Book Area; 929.273;F854f

**Title:** *The Franklin genealogy* / edited by "The Franklin clan" as compiled by Gurney J. Franklin. 2nd ed.

**Publication Information:** Linville Falls, North Carolina: Published by the Franklin Clan, 1977-1988.

**Format:** 3 v.: ill., coat of arms, facsim.

**Contents:** This multi-volume set of books is concerned chiefly with the descendants of Samuel Franklin, son of John Franklin Sr. (1727-1819) of Burke County, North Carolina. John Franklin Sr. (1727-1819) was a Revolutionary War soldier, and the Franklin Clan believes he was also a great nephew of Benjamin Franklin (1706-1790), the American statesman and philosopher who helped draft the Constitution. John Franklin Sr. (1727-1819) married Phebe Parker and had eleven children (five boys and six girls). His son, Samuel Franklin (died 1853), married Dorcas Burns, and had seven children (six boys and one girl). Descendants and relatives (and probably ancestors) lived in Pennsylvania, North Carolina, South Carolina, Georgia, Tennessee, Texas and elsewhere. Includes some ancestors in England to the early 1500s.

Includes Burleson, Cook, Cuthbertson, Daniels, Dellinger, Denny, Oakes, Phillips, Presley, Reese, Shook, Todd, Vance and related families.

**Earliest Franklin Progenitor:** This is not clear.

**My Observations:** The introduction in the first volume explains that this is primarily the the descendants of Samuel Franklin, son of John Franklin of Burke County, North Carolina. Although the author was of the opinion that this John Franklin was the nephew of the famous statesman, this has been proven incorrect (See FFRU Volume 6 for evidence of the actual lineage of John Franklin of Burke County, North Carolina).

There are several biographies of the Franklins of North Carolina. No index, no sources. This uses a variety of formats. It is mostly a list of names in either indented outline format or indented format using a several variants of the Henry numbering system, with many mistakes and inconsistencies in the numbering system.

### Bible Record for Preston Franklin of Talladega, Georgia

Submitted by Carl Hannah <CAHannah12@aol.com> and Randy Franklin <Kenshowind@aol.com> There are several mentions of this Preston Franklin in previous issues of FFRU. Most recently in the Alabama Census, FFRU Volume 37, April 2002.

Randy says: "My brother finally got a copy of the Talladega County, Alabama bible of Preston Franklin. Gives a complete list of his children but no info on his origins. I don't know if this is the same Preston who "pocketbook" was passed down through the James Franklin family through the John Newton Franklin branch. It might be useful to compare the writing in the bible versus that of the old wallet to see if it matches up. Preston and his wife (Nancy R.) had a total of 10 children, they were:

James T. Franklin born Dec. 3, 1833 and died Talladega July 24, 1835.

Mary Rebecca Franklin born Sept. 26, 1835 and died? She married James D. Allen in 1852.

Purlina Jane Franklin born April 23, 1837 and died April 4, 1853. Married Juniah Allen 1852.

William Thomas Franklin born Dec. 14, 1839 and died April 27, 1865. He married Dec. 1, 1863. His daughter ? born March 1865.

Margaret Caroline Franklin born Nov. 26, 1841 and died Aug. 19, 1847.

Miriam Thermutties Franklin born Aug. 20, 1843 and died Feb. 1879. Married 1st. Alonzo Baughen 1857 and 2nd Jasper Taylor 1860 at Daviess Co., IN.

Nancy Elminy Franklin born Oct. 16th 1845 and died in Arkansas ca 1901. Married John Newton Killion

at Daviees[sic] Co., IN 1863.

Martha Mahaley Franklin born July 4, 1848 and died August 29, 1863.

Isabella Franklin born June 18, 1850 and died June 30, 1860.

Dora Ann Franklin born Nov. 14, 1855 and died Feb. 23, 1870.

Preston Franklin died at Daviess Co., IN on October 16, 1860. His wife, Nancy R. remarried a Joseph E. Eaton. Nancy died Jan. 1, 1879.

Maybe much to do[sic] about nothing but the only other Preston Franklin that I have record of also lived in Indiana but his family pedigree is accounted for.

The other lead that I have been working on (emailed Jerry Payne about this but did not hear back) concerned a query that I got this past summer asking about Susan Franklin. The researcher seems to think that the Susan who lived with James Franklin and Lou Ann Park was the Susan in her family line, but known by the full name of Martha Susan Franklin who was the second wife of an Obadiah Thornton of Barry County, Missouri. There is a marriage record for them at Christian County, Missouri. They lived in Berryville Arkansas. Her birth year matches though that is about all that is known. She was born in Arkansas and one census claims her fathers birthplace as Alabama. Nothing solid has come of this but I pulled all the Thornton materials I could for future reference in case this works out. Nothing in the Thorntons reflected back to Franklin origins though. Hope all is well with you.....Randy L. Franklin

## **Claiborne County [Tennessee] Farm Agent, C. M. Franklin**

“Claiborne County Farm Agent Visitor Yesterday” from Middlesboro (Kentucky) Daily News, 4 May 1923

C. M. Franklin, Claiborne county farm agent. was in Middlesboro<sup>1</sup> yesterday and paid this office a visit. Mr. Franklin is doing a great work in arousing interest in livestock in Claiborne County through his Pig club and he seemed very enthusiastic over the Work he was doing. He spoke in particular about the Semi-Centennial Farm & Convention, to be held in Knoxville Mar 22, 23, and 24, and which he urges all farmers who can to attend. The round trip ticket will be one and a half fare to Knoxville at this time.

## **Ray B. Franklin Obituary**

Franklin, Ray B. born 3 Jun 1908, died 24 Oct 1963. Died in Hutchinson County, Texas. Buried Memory Gardens Cemetery, Pampa, Gray County, Texas.
