Hot Sun—Dusty Roads

By the time you reach tonight's light you'll be hot and tired and your throat dry with dust and thirst. Hunt up a soda fountain and treat yourself to a Glass or a Bottle of

Coca-Cola

Just as cooling is the bottom step in the spring house, you'll find it relieves thirst too, and vanishes away all the dust and dirt, so nothing else will touch the spot.

What a Famous Editor Says.

The editor of the Taylor-Treadwell magazine writes to one of his friends these words: "You asked me to notify you if I saw an opportunity for a sale investment, I have it for you. I shall be very glad to see what a good opportunity for a money-making investment this magazine offered. You asked me to let you in on the ground floor and I am doing so."

This great opportunity is given to all who desire to be a publisher and a life contributor to the Taylor-Treadwell magazine. One share of stock (one volume) and a perpetual subscription to the magazine, both for \$100.

Let us have your order now. This opportunity is limited.

Sun Brothers' Big Show

The value of a good name as a trademark in winning the confidence and esteem of the public was never better exemplified than in the case of the Sun Brothers' great progressive show this season. Wherever they have held their large and various, immense crowds have been in attendance. The show is bigger and better than ever. The arena is located in the city and the actual department is managed by three very good and strong boys from the islands. The Sun Brothers' performance is always their old, interesting, and custom fall to be instructed in surgery.

For the 1910 season will be made at each performance, the names of the very greatest orators that ever appeared before the public. These orators of oration, present a surprising series of entirely new and original facts, scientific strength, which will be made at each performance. These boys will appear at each performance of every class. The names of the very greatest orators that ever appeared before the public. These orators of oration, present a surprising series of entirely new and original facts, scientific strength, which will be made at each performance.

At 10:00 o'clock, there will be a magnificent piano recital in front of the main entrance, a series of extraordinary fine selections. It is announced that they will be the best soloists ever before shown in the public generally.

Farm for Sale.

One hundred acres—2 miles from in subdivision, one mile from National Hotel, Fla. One fourth acre and remainder for balance. Will take a good many horses in the yard and a large size main. I wish to purchase a share farm on Central road near Cuba Springs, Ala. J. L. STEVENSON, New 30 St. Florida, Ala.

Officials of the same organization have been notified by Federal Judge Thomas G. Jones to produce A. L. Lind, a former partner of the same organization in the trial of J. J. McAlister charged with conspiring to secure a return. McAlister is located in late-mentioned money for the same in Florida under the provisions of the 1908 Federal act. Lind, the alleged partner, is a prominent citizen in his name. The order of Lind's arrest. Lind is now in the hands of the Federal authorities for an alleged conspiracy in Florida, and is expected to be in New York.

About the Country.

Editor News:
Farmers are nearly through gathering their crops and many of them seeking employment at the saw mills and logging camps. What a blessing to our farmers that our plan for sale are in such great demand. Many of our farmers are selling of timber and raising lumber some in the north and south is being largely imported in the logging camps. Hence the plan for sale.

Mr. W. H. Adams is making his "week product." Now, we would say your correspondent to see his standing by the latest harvest making his first and sending the many pigs, which were, turkeys and chickens and peeping through the cracks of the smoke houses, showing the long-necked sausage and the numerous boxes of eggs. This with what disappointment he realized the good will's refusal to sell a lot of them. The reason being, they "didn't have to sell." This is not another strain indicating the prosperity of our farmers.

Mr. Adams expects to make 100 gallons of syrup and will double the price for sugar for all he sells.

Mr. Walter Dean's baby sister, daughter, Miss Mary, is in the hospital under the skilled treatment of Dr. Eugene of Florida, S. R. J.

When a girl becomes entangled in the system, it will take several years to get her out, and the best remedy to use is Chamberlain's Cough Remedy. It will cure any cough, whether it is a cold or a fever, and also breaks the system in a natural and healthy condition. Sold by all druggists.

Geo. H. Buckley, press manager of the Sun, comes from several days in Florida. He is an old newspaper man and was with Bureau & Bailey, afterwards, twenty-two years. He was pleased with our city and said that it had more brick buildings than any town of equal size he had ever visited. He says the Sun are doing the public a good, and that they will all standing before eliminated. We were glad to hear this statement, so many such shows are an excellent course to the localities which they visit on account of the wide-spread charitable schemes shown on the grounds.

Group is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their houses and it has never disappointed them. Sold by all druggists.

AMERICAN FENCE

What makes a good fence? Should it have wire hard as flint made with the highest carbon the same as the makers of American fence put into its piano wire? Or should it be a soft wire such as they put into their weaving wire that is sold to manufacturers of wire cloth? Neither—it should be a medium wire that many years' experience has shown to be exactly right for the purpose. The American Steel & Wire Co. makes every kind of wire that is used, beginning with its own mines, through its own furnaces and steel and wire mills and they know what is the right kind of steel to use for a fence. Trust their judgment.

Should a good fence have a right stay? No—we believe in the biggest joint that is strong, flexible, yielding to pressure like a spring bed and snapping back again to its place. Flexibility is its life. A post-and-rail fence on a blight is more durable than a solid one for this reason. American fence is made of large steel thoroughly galvanized and proof against weather.
