

## THE FLORALA NEWS

PUBLISHED WEEKLY  
W. G. McLAUGHLIN,  
EDITOR AND PROPRIETOR

SUBSCRIPTION PRICE \$1.00

Known to the Friends of Florida, Ala.  
as Second-Class Mail.

Did you hear a noise, like a  
cat?

Cover up, astronomer. Mars  
isn't going to run away, anyhow.

That Louisiana calf with two  
heads and two tails came near  
being born.

The only safe bet on the weather  
is that the wagons is yet to  
come.

That fellow who turned burglar  
because a girl liked him  
deserves was looking for an excuse.

In London a safe has been  
made to hold five hundred million  
dollars worth of radium. The  
question now is to get the radium.

About the easiest thing for a  
married woman to do is to make  
her husband believe that he  
knows best.

A sensible man carried a tommie  
tissue by fastening it to his  
fingertip on the left hand.

Mast has dropped half cost a  
pound in Chicago. That's a long  
way to go to save a half cent.

Paying dues to the government  
is a penalty for something  
you've never done.

Can the simple folk who make  
654 pounds of copper from a  
square inch be expected of  
highway robbery.

In learning how to manage a  
typewriter the principal  
difficulty is that you can't meet  
the machine on anything solid  
while you are doing it.

A judge advised a speed  
magazine to see a doctor. A good  
old-fashioned prison doctor would be  
particularly likely to show him  
right.

One compelling thought during  
the hot weather is that we are  
all free and untrammeled Ameri-  
cans citizens, and we will have a  
long or even endless summer  
telling us about it until some  
in November.

A college student is leading a  
healthful and athletic life on one  
dollar a week, and the society  
women of Long Island who are  
hosting for the sake of health and  
beauty are giving rosy cheeks  
and general benefit.

The astronomers are predicting  
that the Donist comet, which  
was such a peculiarly brilliant  
object in the heavens in 1856,  
will return in two thousand  
years. That at least relieves the  
present generation from all ap-  
prehension as to what may happen.  
And the probability is that it  
is built as accurate as many  
of the things that have been  
said about the present passing  
visitors named after the late Mr.  
Halley.

Australia has increased its  
meat exports in the last five  
years from \$7,000,000 to 10,000,-  
000 annually. In the efforts to  
extend this trade the Liver  
process of sterilizing beef is  
a success. The process kills the  
beef instead of freezing it.

The national forests under govern-  
ment care in this country  
amounts to 194,500,000 acres,  
about the same area as that of  
the states of Texas and Ohio  
combined.

When the stomach fails to per-  
form its functions, the bowels  
become deranged, the liver and  
kidneys congested causing severe  
distress. The stomach and  
intestines are subject to both  
healthy condition and Cholera.  
Dr. H. Stomach and Liver. Tablets  
can be suspended upon to do  
it. Easy to take and most effective.  
Sold by all dealers.

John Freedwood of Paxton  
spent Saturday night at Florala

## Florala's Annual Singing

The third annual Sacred Harp  
Singing at Florala was held at  
the Universal Church on the  
11th of July, 1910.

Organized by Rev. W. C.  
Matthews, chairman; D. C. Allens-  
ton chairman; and Miss Madeline  
Hillson, secretary. The follow-  
ing arranging committee was  
appointed: M. A. Holmes, J. W.  
McLeod and A. P. Hillson.

Opened with prayer by Rev.  
D. C. Allens.

The singing exercises were  
conducted by the following lead-  
ers: Harry Lee, Morgan, D.  
Jones and J. W. Thomas, 15  
minutes each. Recites 10 min-  
utes. Thomas, H. Allens and Prod.  
W. H. Cooper, 20 minutes each.  
Recites and hour.

APPROVED SINGERS.

Singers conducted by James  
Tucker, A. P. Hillson and N. O.  
Harrington, 15 minutes each. In  
this 5 minutes: J. W. McLeod,  
Anna Holmes and J. W. Daspit,  
15 minutes each. Recites 10 min-  
utes. T. Shurb, Rev. H. A.  
Brooks and Rev. D. C. Allens,  
15 minutes each.

Some of our songs of about this  
time show the stars arranged in  
the form of a star and big star,  
and some show them ar-  
ranged in circles. The perman-  
ent present fashion was adop-  
ted after 1818, when congress  
passed the resolution that a new  
star should be added to the blue  
field, for every new state admitt-  
ed to the union.—Ex.

RESOLUTIONS were adopted as  
follows:

1st. Thanking the people of  
Florida and neighborhood for  
their hospitality to visitors.

2nd. Thanking the members  
of the Universal church for  
the use of their building for  
the session.

3rd. Thanking the local news  
paper for publishing announcements  
of the singing.

It was unanimously decided  
to hold another session of the  
singing at Wednesday afternoon after  
the second Sunday in July 1911.

The secretary was instructed  
to furnish copies of these reso-  
lutions to the Florida News and the  
Florida Democrat with requests  
that the same be published.

Adopted with acclimation  
by Rev. D. C. Allens.

W. G. Mathews, Chairman.

Miss Madeline Hillson, Secretary.

Four young men have been  
appointed to offices in the court  
of Probate by Judge John L.  
Jenkins, of the federal court.  
Miss Lenore Coburn was ap-  
pointed reporter of sales of  
\$12,000. Miss Nellie Coburn,  
deputy clerk of court at Fort  
Paxton, at a salary of \$1,200; Miss  
Lila Grimes, deputy clerk of  
court at Paxton, at a salary of  
\$1,200; Miss Culture had been  
for several years private secre-  
tary to Judge Jenkins, and has  
previously held a similar post  
with Senator Stephens.

Stock raising, especially sheep  
raising, has been largely de-  
veloped in New Mexico, which  
exceeds all of world production  
in 1906. Dry breeding has  
been productive and together  
with the breeding of great triv-  
alization reservoirs and canals has  
made New Mexico caught up  
with many of the more advanced  
states in the Union.

A sensible man, and a  
kind word can do wonders. Two  
men can do more than one, and  
two kind words can do more  
than one kind word. It seems  
to be a simple problem of  
arithmetic. If one smile and  
a dozen kind words make  
happiness? The problem is simple.  
Don't be stingy with your smile  
and kind words. Sir.

From the looks of things,  
house flies, mosquitoes and  
insects will not be disposed  
of this year. All are fast  
breeding and a determined war  
must be made.

The fly is extensively eaten in  
China. Among the subtle for-  
ers of the insects are arti-  
chokes, cauliflower, cabbages,  
peppers and chrysanthemums.

About twenty hives gathered  
together at Florala last Thursday. They  
were caught in the northern part of this county.

## Our Flags

The red and white stands for  
the sun, the white for purity, the  
blue for justice. Our first revolu-  
tionary flag generally used was  
called the grand union flag. In  
this the minutemen, who we now  
remember, were still Englishmen,  
kept the red ground of the old  
English flag but striped it with  
white bars so there should be  
thirteen bars, or stripes, as  
an emblem of the thirteen colonies.  
Also they kept the blue field of  
the English union jack but took  
out the crosses of St. George  
and St. Patrick.

These were the colors of the  
Revolutionary War.

After the battle of Bunker Hill  
the Americans adopted the stars  
and stripes.

### A Good and True Story

About six years ago the principal received a letter from a girl about fourteen years of age asking to be admitted without money. Her beloved mother, a graduate of the Alabama, and her father, a graduate of Bienville College, had travelled in her as far as possible to be something and to do something. The house being full of students, many of whom were themselves in school on credit, the girl was denied entrance with the explanation that there was not a vacant bed in the house. Then she wrote back to the principal that she would sleep on the floor and do any way just to get in the school. She came, and all she had was tied up in a small sack, packed in a small broken trunk. The principal's wife gave her a new dress and a good brother in town gave her another. She was taught to work and studied hard. She became a teacher, and is this day supporting her aged mother.

The above is an extract from a letter by Rev. R. M. Hunter, principal in the Alabama Baptist and the school referred to is the Baptist Institute at Newton. The fact that the father of the little girl was educated at the Howard and the mother at the Johnson, gives this story local interest. Hundreds of true stories similar to the above could be written showing the importance of culture and education the fruits of those old schools passed down through the parents to the children incubating an ambition that will overcome all obstacles to satisfy. Edna Tamm is an ideal for the individual who will live and bear fruit for generations to follow—Miss Standard.

### Education, Rest and Recreation.

The Sunday school workers of Alabama, Mississippi and Louisianna offered a special Opportunity in Training for Service at their very door. Beginning August 15th and running through the 16th the Sunday School Association of Alabama, Mississippi and Louisiana will conduct the second session of the Gulf States summer School of Methods for Sunday school workers at Beauregard Camp Grounds, Bienville Park. Every phase of modern day school work will be covered by a strong faculty. The following persons constitute the faculty for 1910:

Prof. W. T. Lower, B. O. resident Mississippi College, Mrs. Fred. A. M. Ross, Superintendence Education, U. S. G. Board, Dayton, Ohio. See State Board, Normal College, Jardine, Miss. Misses Minnie E. Kastner, Corresponding Birmingham Sunday school association, Misses Jades, Elementary superintendent Louisiana Sunday School Association, Rev. G. D. McTeer, Training Room student Louisville, Ky. & a girls' tool association, Rev. Wm. H. Hobson, Biloxi, Miss. Misses Marion Superintendent, Louisville Sunday school association, Prof. W. Fred Leng, General secretary, Mississippi, Mr. W. J. Head, Association, Mrs. V. H. Wiley, General Secretary, Louisville, today school association. Defaced rates will be given by telephone. Registration fee \$1. Admission ticket to grounds \$1. Board and room \$10.00 to \$12.00 per person.

When Dr. Leo G. Braghtenbach dictated the following call to the London, England, church, his Atlanta friends at once realized the financial seriousness of his great Tabernacle enterprise in starting. At first accounts over \$10,000 had been unaccounted. One subscription of \$5,000 was made by a Methodist minister.

Chance for the South  
The South a pound of cotton with fifteen cents a pound and the price of cotton is taken away and less than half it will be worth forty cents. It will be taken to New Orleans and in ten days six months will be worth \$1.00. That is to say, there will be a loss of \$1.00 per pound. That speaks for the south.

### He Was a Good Miner.

There are many people in Indianapolis who are well known in Indianapolis. He was one of one of the leading citizens of the city. He was well on the plan of the late George, whose name was I. C. Moore. This Indianapolis preacher is what is called a good miner. One day he stepped in a blacksmith shop to chat with the workmen. During the visit a dark faced man of mysterious appearance came into the shop. He and the minister began talking, but neither knew the other's business. They became friends in a few minutes. Finally the said faced man produced his card, which announced that he was in the salve business on West street.

Down down to say when any time he said, "I'll show you a good time."

All right, replied the minister, and by the way, I'm running a good place myself. Come and see me, and I'll show you a good time."

"Please do that," said the minister, but, by the way, where is your place?"

My point, was the reply, is the First Presbyterian church. Just inquire for Myron W. Wood, the pastor and I'll tell you your services.

—Lester Times.

A community without good schools and churches is in a poor way. Did you ever stop to think that a church is just as good as, and no better than, the folks of which it is composed? And that your church congregation is the best you have? And that your schools are just as good as, and no better than, the pupils comprising them? And that these pupils are our children. Each individual is therefore bound to do his due-level best as a subscriber, churchman or citizen. A whole lot is better than its parts. You are out of the party—H. H.

John D. Rockefeller gave \$1,000,000 towards the work of quadrupling the lawnmower department. This work is by Mr. Rockefeller's suggestion, a combination of pharmacists and engineers who will produce an office machine for the destruction of the lawnmower market, and will doubtless result in the saving of thousands of human lives. It is conservatively estimated that in the south there are today more than two million mowers from this safety.

About 75 per cent of the men and women in France 50 years old are property owners. For persons under 40 years the proportion is not large. As a general average, every individual in France over 40 years old possesses \$25,000, or double that amount for a married couple.

The first issue of the Saturday Evening Post has reached our exchange table. Mrs. Brooks Lawrence who is well known all over the South is editor. The Review is a weekly journal and is published in Birmingham, Ala. The news values the Review all sorts of success.

We seldom ever stop and think over an exchange, of the correspondence we daily enjoy. We take this as a matter of course, feeling that they are all right, but not realizing how long the other fellow will wait, now many thousands of people have moved along without us.

When Dr. Leo G. Braghtenbach dictated the following call to the London, England, church, his Atlanta friends at once realized the financial seriousness of his great Tabernacle enterprise in starting. At first accounts over \$10,000 had been unaccounted.

One subscription of \$5,000 was made by a Methodist minister.

The South a pound of cotton with fifteen cents a pound and the price of cotton is taken away and less than half it will be worth forty cents. It will be taken to New Orleans and in ten days six months will be worth \$1.00. That is to say, there will be a loss of \$1.00 per pound. That speaks for the south.

### Representative Clayton.

Senator Bailey of Texas, got up and stated, while the miners and laborers still were before the Senate, and proceeded to laud Representative Clayton, who had spoken in the session chamber to the new Alabama's interests were during in the session's action upon the bill. The brochure with Senator Bailey was that the board of Engineers, the House Committee, and the Senate Committee, together with the Conference Committee, had turned down a proposition to build a canal in Texas, which project was in the interest of private parties, and which the Senate favored. But all of his ranking and disinterested men.

The fact is Clayton's one of the few members of congress who do this for the people, while Senator Bayley, who is credited with being sent to Congress by the Standard Oil interests, is found championing special interests and corporations. Panama City Pilot.

The Georgia peach escaped the cold only to get ruined.—Atlanta Journal.

My point, was the reply, is the First Presbyterian church. Just inquire for Myron W. Wood, the pastor and I'll tell you your services.

—Lester Times.

When you are a big, strong, healthy young man having串 teeth of his, don't get angry with him. He may only be waiting until a vacancy occurs in the presidency of some bank.—Harpoone.

Lyon Hill is to have a mid-summer picnic Saturday, July 10th.

A LAWYER'S SLIP,

Put to Death Evidence Against My Own Client.

It does not seem to be frequent that a plaintiff gets things the wrong way that he considers a satisfactory settlement when a railroad company is the defendant. Cases of record, however, where the attorney for the railroad has on occasion obtained evidence that resulted in a verdict for the defendant.

Mr. Bush's case was that of Mrs. Hawkins of Dallas, who sued the Missouri Pacific for \$10,000 before a court in Kansas.

The defense was represented by the side and legal Mr. Waggoner, who sought to prove that there was a full moon on the night of the accident and to place the responsibility with the plaintiff. A messenger boy was sent for and secured the moon from the rear of the west door. Examining it, he saw that it contained the desired proof, so he showed it in evidence.

In his argument the lawyer for the plaintiff declared that the defense attorney was the property of certain men who were to be named, who had arranged for him to obtain a great number of millions and were well able to care for his entitled client.

Waggoner was immediately on his feet, after a loud objection to the defense attorney, pointing out that nothing had been introduced in the evidence to justify the statement.

“May I please your honor, there is a defense attorney here,” he said, “in the direct affidavit offered by the learned attorney for the defense.”

“What?” shouted the surprised Waggoner.

He is, he is, this afternoon, year hence, calmly replied the lawyer. He had studied the book, and, on the page were pictures of the man named, together with sketches of their lives, and every one of them had a sum of \$100,000.00 to \$100,000,000.00.

These figures suddenly appeared to the jury to be ridiculous enough to send a verdict for the amount asked, and, not without hurting their ears.—New York Tribune.

Silently retired.

Her eyes were wild, her hair was disheveled, her face was flushed, her hands were clenched. She was deeply injured and disfigured.

“We stand now,” she cried to an amazed husband, “I have borne with you too long. You have injured the very foundations of my being. Day by day you have tortured me, and now here I am again to prove to you that you are bad, and you bear and inflict pain. When you treated my wife, our only daughter, with such severity and ill treatment, I could not stand it any longer. We are separated. We are separated.”

“There may be a momentary fit of insanity,” he said, “but you are not bad, and never did I expect to hear such words. Be sure I repeat. We part forever.”

“There may be a momentary fit of insanity,” he said, “but you are not bad, and never did I expect to hear such words. Be sure I repeat. We part forever.”

## THINK OF Mexican Mustang Liniment AND WHAT IT MEANS TO YOU.

Relief from pain that might otherwise cause you hours of agony.

Tired out muscles eased up and made ready for another day's work.

Limberness in the back and shoulders promptly cured and stiff joints limbered up.

Burns, Scalds, Cuts and Mashes rendered painless and quickly healed.

Rheumatism, Lameness and Sciatica rubbed out, banished and banished forever.

Ulcers, C. Sore and Open Wounds healed just as quickly.

Prices 25c, 50c, \$1.00 per bottle. LYON MFG. CO. 41 to 45 So. 5th St., BROOKLYN, N.Y.

#### CITY LOTS AT REASONABLE PRICES

### Hot Sun— Dusty Roads

By the time you reach town and light you'll be hot and tired and your throat dry with dust and thirst. Head up a soda fountain and treat yourself to

A Glass or a Bottle of

Coca-Cola

Just as cooling as the bottom step in the spring house. You'll find it relieves fatigue too, and washes away all the dust and dirt as nothing else will. It touches the spot.

Delicious-Refreshing-Wholesome
